SKILLS

- **Languages**: C++, JavaScript, C, Python, DSA, Java, Machine Learning
- **Frameworks**: HTML, CSS
- **Tools/Platforms**: MySQL, Power Bi, Excel, Neo Colab, IDLE
- **Soft Skills**: Problem-Solving, Critical Thinking, Time Management

INTERNSHIP

Skillfield – Data Science Internship | Certificate Jul' 25

- Worked on detecting fake credit card transactions using machine learning models.
- Cleaned, analyzed, and visualized data to find patterns of fraud.
- Used Python libraries to train and test models for real-time fraud detection.
- Tech: Python, Pandas, NumPy, Scikit-learn, Seaborn, Matplotlib

PROJECTS

Annapurna Analytics | India-Style Agriculture Dashboard | link Nov' 25 - Dec' 25

- Built an interactive Power BI dashboard using Excel-based datasets for crop yield and climate analysis.
- Performed data cleaning, transformation, and visualization to analyze soil pH, rainfall, temperature, and input usage.
- Applied data analysis techniques to evaluate profitability, MSP comparison, and resource sustainability.
- Tech Used: Excel, Data Visualization, Data Analysis

Credit Card Fraud Detection System | link Jun' 25 - Jul' 25

- Constructed a real-time fraud detection system using ML to classify genuine vs fraudulent transactions.
- Implemented and compared Logistic Regression, Decision Tree, Random Forest, and Isolation Forest.
- Achieved 95%+ accuracy with high precision for rare fraud cases using data analysis and visualization techniques.
- Tech: Python, Pandas, NumPy, Scikit-learn, Seaborn, Matplotlib

Road Accident Analysis Dashboard | link May' 25 - Jun' 25

- Built an interactive dashboard to analyze road accident patterns across regions
- Visualized accident frequency, timing, vehicle types, and severity distribution
- Implemented slicers, drill-downs, and comparative views to derive actionable insights
- Tech Used: Excel, Data Visualization, Data Analysis

District-Wise Scheduled Tribe Population Visualization | link Apr' 25 - May' 25

- Assembled a geographic visualization to map Scheduled Tribe population distribution across districts
- Used interactive charts and geo-maps to highlight demographic patterns and regional density variations
- Analyzed socioeconomic insights through data-driven visualizations
- Delivered a clear, data-rich representation to support policy planning and research
- Tech: Python, Pandas, NumPy, Scikit-learn, Seaborn, Matplotlib

TRAINING

Programming Pathshala | link Jan' 24

- Completed Data Structures & Algorithms training from Programming Pathshala.
- Gained hands-on experience in solving coding problems efficiently.
- Learned optimized coding techniques for better performance and scalability.

CERTIFICATES

- DSA Programming | Programming Pathshala | link Jul' 25
- Java Programming |link Jun' 25
- Python Programming | Udemy | link Jan' 24

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; CGPA: 6.42 *Since Aug' 23*
- **Chaman Vatika Gurukul** Ambala, Harayana
  Intermediate; Percentage: 73% Apr' 22 – Mar, 23
- **Chaman Vatika Gurukul** Ambala, Harayana
  Matriculation; Percentage: 81% *Apr' 20 – Mar, 21*
